Student (Gr. 6+)

2023-2024 Academic Planners

Our attractive and practical student planners help everyone track assignments, themes, and the virtue of the week. It also features weekly assignment pages, monthly help tracking, and a surplus of resources. This year's theme will help schools and families participate in the Eucharistic Revival with the whole Church in the United States.

Daily Virtue Announcements

These daily announcements, appropriate for any age group, focus on one virtue each week. They include a brief reflection on the virtue, usually suggesting ways to practice it, and a related prayer. Use them as morning announcements for a classroom or the whole school to encourage students to begin their day focusing on what matters most: growing into the people God has created them to be.

Cultivating the Virtues Lesson Plan Template

The Cultivating the Virtues Video Course provides teachers with an easy and fun resource for engaging students in grades K-5 with the virtue of the week. The link above provides a schedule demonstrating one way to spend just a few minutes on the virtue each day to acquire a deeper knowledge and complete application of it. A teaching on the virtue, story, saint witness, and prayer activity, with accompanying worksheets, help students integrate their knowledge of the virtues into their relationships with God and others.
